CAREER OBJECTIVE

I am Data warehouse and Business Intelligence professional who can help your organization in designing, building, and maintaining an enterprise data warehouse/ Data Lake and Business Intelligence platforms.

PROFILE SUMMARY

- Dynamic and results-driven DWH and BI professional with 13+ years of experience across the Insurance sector, leading various DWH projects, managing data warehouse operations, overseeing data flow, and ensuring data integrity. Proven ability to lead a team of developers in designing, building, and maintaining an enterprise data warehouse/Data Lake.
- Proficient in mapping requirements of clients as well as different Service Providers, Managers, Consultants & other multiple stakeholders; effective in developing, transitioning and customizing processes in line with specified guidelines.
- Rich expertise in Project Delivery & extending support on Data Warehousing / Lake, Business Intelligence & Analytics engagements and Data Governance.
- Proven capabilities in various processes and functions in the Insurance domain including Regulatory (IIB, IRDA, Audit), Compliance.
- (Red flag indicators), Financial (P&L, Taxation, Coinsurance, Reinsurance), Underwriting (Product Performance), Operations (SLA tracking, Productivity), Reinsurance (Treaty wise), and many more.
- Directed cross-functional & multi- cultural teams using interactive & motivational leadership; acknowledged for leading, coaching & mentoring team members to achieve resource wise productivity
